Seeking a position as a Full Stack Software Developer where I can apply my programming knowledge and development skills. I aspire to join professional teams, tackle complex technological challenges, and contribute to creating innovative solutions tailored to organizational needs.

WORK EXPERIENCE

JANUARY 2022 – DECEMBER 2022
CUSTOMER SERVICE & TECHNICAL SUPPORT REPRESENTATIVE, 'SIM KOSHER' COMPANY

Provided technical support for customers regarding internet issues and handled orders, ensuring professional service and improving customer experience.

EDUCATION

JANUARY 2023 – AUGUST 2023
COMPUTER SCIENCE STUDENT, KODECODE

In the **Kodecode** program, I completed matriculation exams in mathematics and English while gaining skills in Python and full-stack development, including algorithms and data structures. The program also included practical projects, enhancing my ability to solve technological challenges.

DECEMBER 2023 – 2025
SOFTWARE DEVELOPMENT STUDENT, MEGO

I graduated with honors from a Full Stack Software Development course, gaining expertise in programming, algorithms, data structures, and key technology areas. The program included practical projects and in-depth training, equipping me with the skills to address complex technological challenges professionally.

SKILLS

- Full stack
- Python
- SQL

- Teamwork
- Working under pressure
- Time management and task organization

SKILLS AND PERSONAL ATTRIBUTES

An enthusiastic student with excellent self-learning abilities, a drive to turn innovative ideas into impactful technologies, and the ability to work and lead effectively in teams. Strong interpersonal skills, high professionalism, and a commitment to meeting deadlines. My dedication to excellence and continuous development is an integral part of every project or task I undertake.
